The S7HD brings Ultra Hi-Definition Sound to your boat!

The Samson Sports sound quality, form factor, power handling and fit and finish are un-matched by anything available on the market today. The patented “quick release” clamping system allows a full 360 degrees of rotation and fits virtually any boat tower.

Need to know if the Samson Sports S7HD fits your boat? Check the list below to see what application fits your boat the best.

* MasterCraft 2003-2006 X-Star and some pre-2009 Tigé towers are 2 7/8” in diameter which require slight modification to the standard clamp. Please contact Samson Sports for more information.
**Specifications**

- **Compression Horn:** 34mm Titanium Diaphragm
- **Mid Bass Driver:** 7 inch injection molded polypropylene cone with weatherized rubber surround
- **Features:** Powder coated water resistant basket composite hybrid grill / horn throat
- **Nominal Impedance:** 4 ohm
- **Clamp to Tower Fit:** 1.875 inches to 2.75 inches

Contains Parts Protected by US Patent# 6,798,892 B2

**Size and Weight**

- **Hanging Height:** 10.25 inches (260.35 mm)
- **Speaker Height:** 9.0 inches (228.6 mm)
- **Width:** 8.875 inches (225.425 mm)
- **Depth:** 9.5 inches (241.3 mm)
- **Hanging Weight:** 6.7 pounds (3.04 kg)

**Power Ratings**

- **RMS:** 250w
- **PEAK:** 500w

**What Comes in the Box**

- 2 HD Tower Speakers
- 2 Quick disconnect clamps
- 2 Direct fit brackets (located on the bottom part of clamp device)
- 2 neoprene wetsuit sock zipped storage bags
- 1 Owner’s manual

---

"I got the S7HD tower speakers installed and we were out on the water both days over the weekend. Had them paired up with the [edited]80’s that I have and there is a big difference between the two. **The S7HD’s give you a much cleaner brighter sound that is able to be heard easily in the boat and for the rider.** They give a better range of sound then the [edited]80’s as well."

---

**SPL vs. FREQUENCY**

- **Bass Region**
  - The S7HD’s Mid Bass driver is designed with a special motor structure to provide extra strength in the low frequencies to couple to air better to give enhanced upper sub bass and mid bass performance.

- **Mid Range Region**
  - A smooth transition and focus on efficiency allow the S7HD to have an ultra smooth and natural midrange response while still maintaining industry leading output.

- **High Frequency Response**
  - Due to the use of cutting edge adhesive and manufacturing techniques the S7HD really shines on the top end. Due to the ultra lightweight diaphragm the S7HD horn can play flat above the range of human hearing. The enhanced performance in this area allows for compensation of environmental effects on high frequency sound to provide a full, open and bright listening experience in all listening locations.
